

GIRLS FATE IS IN JURY'S HANDS

Case of State Against Mary Ellen
Hughes Closes at 2:30 With In-
structions by Judge

BIG CROWD ON CLOSING DAY

Forty People Wait at Court House
Door at 7:15 This Morning so as
to Get Choice Seats

The fate of Mary Ellen Hughes, 22 years old, was given over to the jury shortly after 2:30 o'clock this afternoon, after the instructions were given by Judge Craig of Greensburg, special judge who heard the case. The case charging the defendant with embezzlement, required five days for trial, having started last Thursday.

The outcome of the case has been closely followed by a crowded court room at all time. Both the state and the defense placed great confidence in the jury bringing in their respective verdicts. The general consensus of opinion that prevailed in the court room, seemed to be that the jurors would be unable to reach a decision, or an acquittal would be made. Others, however, could be found who admitted that the state had a good case.

This morning at seven o'clock the first spectator arrived on the third floor of the court house, long before the court room was thrown open, and Harvey Pruitt, custodian, stated that there were 40 people waiting at the doors, 15 minutes after seven, when he had finished cleaning up and sweeping the room.

The closing argument was made this afternoon by Donald L. Smith, assisting the state in the prosecution who began at 1:30, and spoke for an hour. Judge Craig then instructed the jury as to how they were to proceed in the jury room, and the jury retired a few minutes before three.

Each side was allotted 2 1/2 hours for their arguments, and the state opened with Gates Ketchum, the prosecutor, who made his talk yesterday afternoon before court adjourned. Albert C. Stevens, spoke this morning for 45 minutes, for the state, and he was followed by Charles Tindal, co-counsel for the defense who argued the case for 2 hours and 20 minutes, finishing after the noon hour. C. W. Duncan, chief counsel, did not present an argument for the defense.

Judge Sparks, who has not been on the bench here this week, has ordered an extra panel of 25 drawn for service Wednesday when the petition of Sanford Heaton is to be heard. The present jurors will be given a rest, after their long grind, and the new set of jurors was notified today to be on hand in the morning. In this case the petitioner is asking that his guardianship be terminated, and that he is capable of managing his own affairs.

During the arguments of attorneys in the final episode of the trial, each side presented strong cases to the jury, and all of the attorneys made excellent speeches covering every stage of the evidence that had been introduced at the trial.

TO GIVE FREE EXHIBITION

Van's Dog And Pony Circus Coming
Under Auspices Of Business Men

Van's dog and pony circus will give a free exhibition on the court house square Saturday afternoon through the courtesy of Rushville business men, it was announced today. Thomas Van who has had his show in winter quarters at Columbus Ind., has been here during the past few days trying to interest Rushville business men in the enterprise and sufficient money has been donated to warrant him giving the show.

Mr. Van says that he has a few weeks time before opening his summer engagements and was anxious to give an exhibition here. The hour's entertainment by the educated dogs and ponies will be free of charge and will be given in the open air on the public square. It is said that the show will be especially attractive to children.

Safety Sam

Conan Doyle says "powerful spirits" killed the man who opened of Tur's tomb; d'ya reckon he found some bottle liquor there an' was fool enough t' sample it?

MAYOR SENDS 2 TO PENAL FARM

John Ricker and James O'Connor
Each Plead Guilty When Ar-
raigned in Police Court

RICKARD PAYS FINE OF \$100

O'Connor, Accused of False Pretense
Will Have to Serve 30 Days and
60 For Fine and Costs

Two men drew fines and penal farm sentences Monday night in police court, before Mayor Thomas, when John Ricker pleaded guilty to a charge of unlawful possession of liquor and James O'Connor pleaded guilty to a charge of obtaining money on false pretense.

Ricker, whose arrest was brought about by several members of the Rushville Horse Thief Detective Association, pleaded guilty when arraigned, and was fined \$100 and costs and given a 30 day sentence, which in all amounted to \$130, which he paid.

O'Connor, the alleged vagabond, who obtained money and car fare from Rushville to St. Louis through the assistance of the Rev. L. E. Brown, was arraigned and after a few explanatory questions, admitted his guilt, and he was fined \$50 and costs and given a thirty day sentence at the state farm.

Ricker, it is stated, was caught Saturday night attempting to hide a bottle of liquor in a straw pile at the rear of 823 West Seventh street, and when two members of the searching party attempted to hold him, he is said to have made his get-away, but appeared in court when he learned that a charge had been preferred against him.

The residence was searched, but no liquor was found, the officers stated. He was given the minimum fine and sentence under the new law, which provides a 30 day sentence, without suspension. A second offense makes the crime a felony, punishable with a prison sentence of from 1 to 5 years.

O'Connor, it will be recalled, was arrested at the Union Station in Indianapolis Friday night, an hour after he boarded a train here for St. Louis, and after local people had taken up a purse to send him on his way. He attempted to sell his ticket, and admitted in court that he had worked the "fleeing game," in order to raise money.

The two prisoners were taken to jail last night, and will probably be taken Wednesday morning to the state penal farm, to serve their sentences. In the case of O'Connor, it will mean 90 days, as the fine and costs amounted to \$60 in addition to the 30 day sentence.

ELKS TO INITIATE TEN

The regular meeting of the Elks lodge will be held Wednesday night, at which time a class of ten candidates will be initiated, and the installation of officers will be held. All officers and members are urged to attend, and the ceremonies will be followed by a banquet.

GARY CITY JUDGE RESIGNS

Gary, Ind., April 10.—William M. Dunn, city court judge and one of the fifty-five Gary and Calumet region officials connected in the Gary liquor conspiracy case, has sent his resignation to Governor McCray and Mayor Johnson. Dunn said he felt he should resign in view of the federal court verdict that he could not render a fair and impartial justice cause every act and decision would be misjudged and misconstrued.

THE KILL JOY

WHAT HOSPITAL MEANS TO STATE

L. C. Huesman, Chairman Of Finance Committee In Riley Campaign
Addresses Letter To T. M. Green

NOT NEW TO INDIANA PEOPLE

But Many Do Not Have Adequate
Conception Of What Construction
Of The Hospital Means

Indianapolis, Ind., April 10. — "The Riley Hospital movement is not new to any one in the state although there are many who do not have an adequate conception of what the construction of the James Whitcomb Riley Hospital for Children means throughout Indiana," says L. C. Huesman, chairman of the state finance committee of the hospital, in a letter to Thomas M. Green of Rushville, Rush county chairman.

"In the first place," Mr. Huesman's letter continues "the hospital, when completed, will in the course of its first year, relieve the suffering of more than 4,000 Indiana children. This applies only to bed patients. Through its out-patients department, the hospital will care for probably an additional four thousand. The out-patients department is really a dispensary where people from Indiana may come for the best and most expert advice for diagnosis and treatment. In Iowa City where there is a similar hospital, thousands of patients are treated through the out-patients department every year and from them are selected those who are in need of surgical treatment in the institution proper.

"I need not tell you that the services which will be rendered to persons living in your county will endeavor to them forever the name of the Riley Hospital and through it those who have assisted so materially in its building program."

Construction work on the first \$500,000 unit of the Riley hospital is now well under way while work will be started on other units as soon as funds become available. The hospital buildings alone will cover twelve acres of ground and will require more than \$2,000,000 to complete. Surrounding the institution will be an eighty-seven acre park, the gift of the city of Indianapolis. Money for the building fund is being obtained through the gifts of the people of the state, pledges to the fund being made payable over a four year period, one-fourth payable each year.

MANY ARRESTED AS FUNERALS ARE HELD

Hugo Stines, German Industrialist,
And His Wife Taken Into Custody
And Later Released

STATE SECRETARY IN JAIL

By GUS OEHM
(U. P. Staff Correspondent)

Berlin, April 10.—Hugo Stines and his wife were taken by French troops from the industrialist's sleeping car attached to a train at Scharnhorst and were placed under temporary arrest in a freight car early today.

Later the Stines were released. Many arrests were effected throughout the new and old occupied areas by the French today on the occasion of a nation wide funeral for the Krupp victims.

Former Ministers Giesberts and Stegerwad were taken into custody. State Secretary Hamm of the Chancellor was thrown into jail.

HONORED AS IF KILLED IN BATTLE

Thirteen Workmen Shot Down By
French Troops At Essen Buried
In Germany Today

BELLS OF REPUBLIC TOLL

Thousands Of Workers Halt Labors
For Hour In Tribute To Dead
—Services In Berlin

By CARL D. GROAT
(U. P. Staff Correspondent)

Berlin, April 10.—Germany today buried the thirteen workmen shot down by French troops at the Krupp works at Essen according to the victims all honors as though they had fallen on the field of battle.

Bells tolled throughout the republic, from the Rhine to East Prussia and from Lake Constance to the North Sea at the moment when a quiet procession, with thirteen odd, open faced hearses containing pentagonal caskets, wended through the streets of Essen.

Mourners in frock coats and top hats followed the caskets through the hushed streets of the Ruhr City, while thousands of workers overalls stained with rust and coal, halted (Continued on Page 6)

CITY BUILDING BULGIN'S THEME

Noted Evangelist Speaks to Rush-
ville Rotary Club at Luncheon on
Four-Square City

SHORT TALK BY E. H. CADLE

Builder of Indianapolis Tabernacle
Tells Story of His Life—How
He Picked Wrong Hand

"The highest conception you can get of your city building, men, is to build your city four-square," said the Rev. E. J. Bulgin of Portland, Oregon, nationally known evangelist, speaking to the Rushville Rotary club today noon at the Social Club.

Dr. Bulgin, who is holding a religious campaign at the Cadle tabernacle in Indianapolis, came to Rushville today at the invitation of the club to speak at the weekly noon luncheon, and was accompanied by E. Howard Cadle, builder of the tabernacle.

Preceding Dr. Bulgin's address, Mr. Cadle spoke for a few minutes giving a brief but simple story of his own life as an example of the way in which God will triumph if given a chance.

"Be careful whose hand you play," was Mr. Cadle's parting word, after a recital of a life of sin which he led in his early life, forsaking loving parents, a devoted wife and two children.

In the parlance of the gambler which he once was, Mr. Cadle said that he was offered two hands to play when a young man and he chose the devil's. For many years he was successful, he said, running gaming and wine rooms. He was known as "Lucky" Cadle and gamblers often warned that they should never enter his place.

"Just throw it over the transom, because 'Lucky' Cadle will get it anyway," was their watchword.

But there came a time, Mr. Cadle said, when everything went wrong and his luck forsook him, his so-called friends left him and his money was gone, and then he realized, he said, that he had been playing the wrong hand.

In desperation, he returned to the home of his gray-haired mother and asked her forgiveness.

"God helping me, I am going to play another hand," he said he told his mother.

That was nine years ago. He soon won success in the shoe repairing business and it is well known to (Continued on Page 6)

MRS. ALICE NEWETT EXPIRES

Former Rush County Woman Dies in
Indianapolis of Pneumonia

Mrs. Alice Newett expired Monday night about twelve o'clock at her home in Indianapolis following a short illness of the influenza which developed into pneumonia. The deceased was an aunt of Miss Agnes Winston Martin Winston and Mrs. Nelle Abercrombie of this city.

Mrs. Newett formerly lived on a farm north of the city, and had many friends living in the county. She and her late husband moved to Indianapolis about twenty years ago where they have since resided. Besides the relatives in this city, six children survive.

The funeral services will be held Thursday morning at nine o'clock at the St. Joseph church in Indianapolis and burial will take place in the Calvary cemetery, this city.

RESERVED SEATS READY TOMORROW

Season Ticket Holders Of Little
Theatre Society Get First Choice
For Third Bill

OTHER SEATS THURSDAY

Excellent Progress Being Made In
Rehearsals For Three One-Act
Plays To Be Presented

Reserved seats for the third and last bill of the season to be given by the Little Theatre Society of Rushville at the Princess theatre next Monday evening, will be available to season ticket holders Wednesday, it was announced today.

Reserved seats will be at Pitman and Wilson's drug store, and as has been the custom in the past, season ticket holders will be entitled to the choice of seats. Single admission tickets will go on sale Thursday at this drug store and reservations may be made at the same.

The final tickets are being put in this week in preparation for the final presentation of the season, which will include "The Choir Rehearsal," "The Florist Shop" and "The Bishop's Candlesticks."

On account of Raymond Gregg director of the society, leaving Rushville before rehearsals for the final bill got under way, members of the society had to do the coaching, and they report that splendid progress is being made.

Mrs. A. L. Gary and Mrs. Roy Waggener are coaching "The Bishop's Candlesticks"; Miss Phyllis Dean and Miss Dorothy Frazee, "The Choir Rehearsal," and Mrs. Donald Smith, Miss Mary Sleeth and Miss Henrietta Coleman, "The Florist Shop."

The cast for "The Choir Rehearsal" and something of the theme of the story was announced today. The excellent cast chosen includes Burton Smith as William, who plays the organ; Will Jay as Enoch who sings tenor; Walter Stevenson as Amos who sings bass; Mrs. Overdorf as Abigail, a neighbor; Albert Cotton as Alan Wylie, the new minister; Magdalene Arbuckle as Esmeralda, who had to be prayed for.

The scene is in the living room of Esmeralda's house in Tuckertown; time at eight o'clock on a spring evening long ago. A few of the villagers gather at the house of Esmeralda for choir rehearsal.

Their practice together with many clever lines, adds greatly to the interest of the play.

The directors, Miss Phyllis Dean and Miss Dorothy Frazee are very much encouraged over the progress of the cast.

LEGIONNAIRES DIVIDED

Warsaw, April 10.—The proposed change in the name of Polk, road here to Memorial drive in honor of Kosciusko county soldiers who were killed in the World War, has resulted in a division of members of John C. Peterson Post of the American Legion of this city. Our faction favors the name of Pershing place. The City council is awaiting a formal recommendation from the Legion post before making a change in the name.

WOULD URGE CUT IN ALL THE TAXES

President Harding Would Include
Reduction All Down Line If Re-
vision Is Advisable

BIG TASK FACING PRESIDENT

Must Harmonize Discordant Ele-
ments In His Party Before Go-
ing To Country This Summer

(By United Press)
Washington, April 10.—President Harding would recommend a cut in taxes all along the line if it is decided that a revision of the tax law is advisable, it was announced today at the White House.

Secretary Mellon's suggestion to cut sur-taxes from 50 per cent to 25 per cent was discussed at today's cabinet meeting but it was made plain that the president did not favor a reduction of merely the higher taxes.

Washington, April 10.—President Harding has set himself to the task of harmonizing all discordant elements within his administration and his party before he goes to the country for the summer.

He will try to eliminate friction between his colleagues. He has already gone to work on this task which has already divided itself into two phases. These are:

1.—Harmonizing the various shape of opinion on the world court plan and consolidate republican opinion so that the party will be united behind him when he goes before the country to appeal for public support.

2.—Eliminate the dispute over who shall have first place in conducting the 1924 campaign and end before it really gets under way the scramble for the post now occupied by John T. Adams, chairman of the national republican committee.

When he returned from vacation, Harding found a party split threatening the work court proposal. Irreconcilables the Boyah and Johnson school were angry over what they called Hoover-Hughes plan to put the United States into the league by back door. Even before he returned Mr. Harding was urged to move his stand on American adherence to the court. His reply was to it be known soon after he returned that he was committed as strongly as ever to the court idea and intended to campaign for it. But he also made it evident that he intended no defy to the irreconcilables.

CHICAGO TERRORISTS CAUSE DEATH OF TWO

Three Buildings Are "Bombed" In
Black Hand Reign Of Terror—
One Innocent Victim

ITALIANS OWNED BUILDINGS

(By United Press)
Chicago, April 10.—Two men were killed and three buildings were bombed in a "black hand" reign of terror.

Stanley King a pianist believed to have been an innocent victim was killed when a bomb was hurled from an auto at the apartment building in which he lived as he was about to enter. King's bride who was waiting up for her husband to return from work ran to the street as the neighborhood was shaken, crying "I knew it" and collapsed, unconscious.

Joseph Polumba, 45, an Italian was shot to death on the streets of "Little Italy" today. Two men walked up to him and fired three shots each into his body and fled. Police blamed "black hand" for the shooting, as well as the series of bombings.

Italians owned or were occupants of all the buildings damaged and police announced they did not believe the explosions had anything to do with three recent similar blasts attributed to enemies of the Ku Klux Klan.

INJURIES PROVE FATAL

Evansville, Ind., April 10.—Pearl Mays died Monday from injuries suffered when his automobile crashed into an Illinois Central train at a street crossing here Sunday. Mr. and Mrs. Fred Meuser, Jr., who were riding with Mays, were seriously injured in the crash. Mrs. Marie Winders, a fourth member of the party, escaped with minor injuries.

A. B. HOOD SERIOUSLY ILL

A. B. Hood, a farmer of Fulmouth, is seriously ill at the home of his son, Van Hood, of Carthage.

APRIL FARM NOTES

(Farm Life)

Do not be in too big a hurry to set out the tender plants and vegetables. If they are chilled they will surely be stunted.

Early docking of lambs insures one against loss and a severe check in growth. If through carelessness or neglect, it is put off until sheep shearing time, the lambs have grown so and the weather is so much warmer that they are materially stunted.

It is well to see that the young pig's ration is one that will build bone and muscle and not only to lay on fat. Only a small amount of corn should go into his feed. Skimmilk, buttermilk, tankage in small quantities alfalfa and other feeds rich in protein should take its place.

The rank grassy odor sometimes detected in milk or butter is caused from intestinal derangement, which is often traceable to a too sudden change in feed. A new feed should be given sparingly at first, feeding a little after cow has eaten her regular feed, and gradually increasing the new and diminishing the old.

Do not burden the horses with an overcoat while they are entering their heavy spring work. In other words, see that they are well carried each day, and as much as possible of the old long hair removed. If not, they are easily overheated and the shoulders and spots where the harness touch have a tendency to become sore.

Do not fail to give the bees an early examination. Weak colonies will require feeding on a syrup made of one part granulated sugar to two parts of water. If a colony is found minus a queen, a new one must be provided. See that they do not have to travel too far after water. Set shallow pans near the hives, in which chips or excelsior are floating.

The farmer is lucky who has his stock well wintered, and should not be tempted, when the first warm days and the first green grass arrives, to cut out the grain ration and turn the young stock out on grass. Continue the grain at least until the grass is old enough to contain considerable nourishment, letting the change from grain to grass be gradual. If any of the animals are not in good shape, it is well to continue the grain with the grass until they become so.

Rub on Sore Throat

Musterole relieves sore throat quickly. Made with oil of mustard, it is a clean white ointment that will not burn or blister like the old-fashioned mustard plaster.

Just spread it on with your fingers. Gently but surely it penetrates to the sore spot and draws out the pain. Get Musterole at your drug store today. 35¢ in jars & tubes; hospital size, \$3.50. BETTER THAN A MUSTARD PLASTER

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach trouble.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

ORDINANCE No. 360

AN ORDINANCE relating to the construction of buildings and providing for the maximum projection beyond the property line of porches, balconies, pilasters, columns, porticoes or entrances of buildings; and repealing all other ordinances and parts of ordinances in conflict therewith and declaring an emergency.

BE IT ORDAINED by the Common Council of the City of Rushville, Indiana:

Section 1—That the face of any wall of any building above the sidewalk level shall not project beyond the property line, except porches, balconies, pilasters, columns, porticoes or entrances of buildings, which may extend or project beyond the property line, not to exceed eight (8) inches, but no such extension or projection of porches, balconies, pilasters, columns, porticoes, or entrances shall be allowed or permitted on sidewalks of less than twelve (12) feet in width including curb.

Section 2—All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Section 3—Whereas, an emergency exists for the immediate taking effect of this ordinance, the same shall be in full force and effect from and after its passage.

PERSONAL POINTS

—Barton Caldwell has returned to his home in Southport, Ind., after spending the week-end in this city with relatives.

—Mrs. Joe Pugh is visiting in Indianapolis this week.

—Jerome Sampson was a passenger to Indianapolis this morning.

—Mrs. Nellie Abernombie spent Monday in Indianapolis, the guest of Miss Mayme Newett.

A Good Time to Buy Next Winter's Coal

Are you interested in keeping your home warm next winter with a furnace coal which holds fire half again as long as ordinary coal—which makes very little ash—and practically no smoke?

The Pocahontas lump coal which is on the way to us now is of this character and will give you the best of satisfaction.

To be sure of getting this good smokeless coal, we would advise you to phone us your order now, because in past years the best Pocahontas coal operators have often sold their output elsewhere later in the season.

The price is \$10.50 a ton delivered. Our phone is number 1412.

Avoid taking a chance of getting an inferior coal later by ordering this good coal now.

WHO'S WHO—Estelle Taylor (Vampire), Lewis Stone, Irene Rich, Marjorie Daw, Mahlon Hamilton.

A fool there was and he made his prayer
Even as you and I
To a Rag and a Bone and a hank of hair.
We called her the woman who did not care,
But the fool, he called her his lady fair.
Even as you and I

The story of a woman who lived to love and a man who loved and died.
Love is Love and Business is Business, but the Vampire makes Love her Business.
So look around for the nearest exit when Your Vampire says "Kiss me, my Fool," and run—Don't walk.

TOMORROW

Wm. Farnum and Wanda Hawley in
"BRASS COMMANDMENTS"

—Mr. and Mrs. M. E. Jessup and son went to Crawfordsville today to attend the funeral of Mrs. Jessup's brother-in-law, Andy Hudson.

—Mrs. Charles H. Brown went to Indianapolis today where she will spend a few days with relatives and friends and from there she will go to Franklin, Ind., for a visit before returning to her home in this city.

—Charles A. Naden, well known horse trainer of this city left Monday for Springfield, Ohio, to take charge of a string of horses at that place. After spring training there, he will start on the Grand Circuit.

—Mr. and Mrs. Robert Brooks have returned to their homes in Greenfield after spending the winter here with Mrs. Brooks' mother, Mrs. J. B. McCarty of West Tenth street. Mr. Brooks has been in invalid for almost two months with neuritis and rheumatism.

FORD NEGOTIATES A VIRGINIA RAILROAD

Motor King is Said to Have Offered
\$90,000,000 For Line Through
Coal District

DIRECTORS WANT \$110,000,000

Detroit, Mich., April 10—Reports were current here today that the Ford Motor Company is negotiating to purchase the Virginia Railroad.

Information that officials of the southern railroad held a meeting in New York last night after which they refused to affirm or deny that negotiations were being conducted with the motor company, add strength to the report. Henry Ford is now in the south and his son Edsel is said to be in New York.

A report said to have come from Norfolk, where Henry Ford was a recent visitor stated that the motor king had offered \$90,000,000 for the railroad. The directors, it is said, demanded \$110,000,000.

Acquisition of the Virginia railroad would give Ford direct connection with his extensive coal fields and also a through route from Detroit to the Atlantic coast.

City Council Joins in Inviting Church Meeting

A copy of the resolution adopted by the city council at their meeting last week, and endorsing the plan of the Main Street Christian churches to this city next year in convention, has been mailed to the Rev. L. E. Brown, the pastor.

The resolution, endorsing the plan of the church is given as follows:

Be it resolved by the common council of the City of Rushville, Indiana, that we heartily endorse the movement of the Christian church of the city of Rushville, Indiana in their endeavor to have the state convention of the church to be in Rushville in their convention in the year 1924.

And we hereby extend to the Christian church of the state of Indiana an invitation to meet in the city of Rushville in 1924.

NOTICE OF SHERIFF'S SALE OF REAL ESTATE

By virtue of a certified copy of a decree to me directed from the Clerk's office of the Rush Circuit Court, in a cause wherein the New Salem State Bank et al are plaintiffs and Montes L. Stewart et al are defendants, requiring me to make the sum of Ten Thousand and Sixty Dollars and Eleven Cents (\$10,060.11) with interest on said decree and costs, I will expose at public sale to highest bidder thereon, on

SATURDAY, THE 21st DAY OF

APRIL, A. D., 1923;

between the hours of ten o'clock a. m. and four o'clock p. m. of said day, at the north door of the Court House of said Rush County, Indiana, the rents and profits of a term not exceeding seven years, of the following described real estate in Rush County, State of Indiana, to-wit:

The east half of the northwest quarter of Section Thirty-six (36), Township Thirteen (13) north, Range Ten (10) east, containing Eighty (80) acres more or less; also the east half of the northwest quarter of the northwest quarter of Section Thirty-six (36), Township Thirteen (13) north, Range Ten (10) east, containing Twenty (20) acres, more or less and containing in all One Hundred (100) acres, more or less.

If such rents and profits will not sell for a sufficient sum to satisfy said decree, interest and costs, I will, at the same time and place, expose at public sale the fee simple of said real estate, or so much thereof as may be sufficient to discharge said decree, interest and costs.

Said sale will be made without any relief whatever from valuation or appraisal laws. Said sale will be made subject to a mortgage lien held thereon by the Equitable Life Assurance Society of the United States, which mortgage was given originally to the Bankers Trust Company of Indianapolis, Indiana, and by said Trust Company assigned to said Life Assurance Society.

SIDNEY L. HUNT,
Sheriff of Rush County.

MARION DAVIES

"WHEN KNIGHTHOOD WAS IN FLOWER"

Teeming with action, radiant with beauty, redolent with the warm flavor of romance—here's the most talked-about picture ever made. The enchanting story of a madcap princess and her daring lover, filmed at a cost of \$1,500,000 and with a cast of 3,000.

The Big Picture of the Year

Admission — Matinee, 15c and 25c

Night, 25c and 35c

Based On "The Vampire"

"A Fool There Was," one of the fourteen big special productions on the 1922-1923 list of William Fox pictures, which is at the Mystic Theatre again today, was a source of continual wonder even in Hollywood, where it is commonly believed that no more surprises in the making of motion pictures are possible.

Under the direction of Emmett J. Flynn, the famous Grand Canal of Venice has been reproduced with realistic memories to everyone who has been so fortunate as to see that famous centre of romance, with its soft-tinted and time-aged settings, its gondolas and its stately-eyed women. And it is said that Mr. Fox didn't even shudder when a bill came in for \$20,000 to cover the cost of a scene that will flit past the screen in a few seconds.

"A Fool There Was" is based on the immensely popular stage play inspired by Kipling's poem, "The Vampire."

Modern Dress Scarce

The only modern dress in Cosmopolitan's pictorialization of the famous romantic novel, "When Knighthood Was in Flower," with Marion Davies as the star, is the uniforms of the guards of the Tower of London—and that is because they are the same today as they were four hundred years ago. Tourists who have visited that grim fortress-prison, will readily recognize the "Beef-eaters" as they appear in the picture. How they acquired the nickname by which they have been known in recent years is unknown.

The Tower of London was not always the grim prison that is so notorious in English history. The wed-

ding of Henry VIII and his first wife Catherine of Arragon, was celebrated there, and also his marriage with Anne Boleyn, who was subsequently beheaded there. In the early days of his reign Henry VIII used the Tower as one of his palaces and it was then that he dressed the guards in gorgeous uniform.

Hampton Court, the great palace built by Cardinal Wolsey, is another monument of Tudor days still preserved in its original form, and faithful reproductions of both these historic structures are interesting features of this great Paramount picture which will be shown at the Princess theatre again today, and

Wednesday. The "Beef-eaters" still carry the enormous halberds with which they were armed in Tudor times.

Alexandria—A. M. Ebaugh is under arrest on charges of criminal mistreatment of his 12-year-old foster daughter.

Your system demands ALL BRAN if constipation is to be relieved!

Your system needs the "roughage" that Kellogg's Bran, cooked and crumbled, supplies. For, it will not only permanently relieve constipation if it is eaten regularly, but its full content of the vital elements of wheat will build health and strength in a wonderful way.

You need bran in its full and beneficial strength and that's what you get in Kellogg's Bran—ALL BRAN! You eat Kellogg's for relief and you will get relief in a way that nature planned. Foods with a bran mixture cannot help the man, woman or child who faces grave illness through constipation.

You must have ALL BRAN—"roughage" that will sweep and clean and purify and bring health back! Children should be given Kellogg's Bran each day; grown people should

eat Kellogg's each day—at least two tablespoonsful, in chronic cases with each meal. Its mechanical action will afford permanent relief.

And, you will find Kellogg's Bran a delight to eat because it is so delicious. As a cereal, sprinkled on other hot or cold cereals, or used in countless bakery batches or in cooking, its nut-like flavor will thrill your appetite—and each spoonful means so much in permanently relieving constipation and in warding off this gravest national ailment. Kellogg recipes are printed on each package.

Start the entire family eating Kellogg's Bran to-day. See the color come back to faded cheeks; see the snap that will go into lagging steps. Kellogg's Bran is wonderful. All grocers sell it!

GOD IS LOVE.—Beloved, let us love one another; for love is of God; and everyone that loveth is born of God, and knoweth God.—1 John 4:7.

Farmers' Marketing Bill

Representatives of the Indiana Farm Bureau Federation and Purdue University will undertake at once the preparation of a cooperative marketing bill for presentation to the next Indiana legislature.

Plans have been made to make a careful and extensive study of co-operative marketing as carried on in the several states and to use the information in formulating a bill which will meet the needs of Indiana farmers.

Dr. H. C. Taylor, chief of the Bureau of Agricultural Economics, U. S. Department of Agriculture, Dr. B. J. Millard of the University of Wisconsin, Mr. Petet, in charge of

cooperative marketing for the American Farm Bureau, Aaron Sapiro, of California, a foremost advocate of cooperative marketing and other leading national authorities will be consulted for this important work.

The above decision is the result of a recent conference at Purdue University attended by W. H. Settle, President, Perry H. Crane, Secretary, and T. I. Ferris, Director of Wood Pools of the Indiana Farm Bureau Federation and Pres. E. C. Elliott, Dean J. H. Skinner, and Director G. I. Christie of Purdue University.

After a very frank and harmonious discussion of the problem of Co-operative Marketing for the farmers of Indiana, with especial reference to the situation created by the Governor's veto of the Cooperative Marketing bill, the following unanimous agreements were reached.

1. That the appointment of any Cooperative Marketing Commission either by the Governor or by the State Farm Bureau Federation at the present time would be prejudicial to the best interests of wise and constructive co-operative marketing legislation.

2. That the Indiana State Farm Bureau Federation and Purdue University should proceed at once to a careful, critical, unbiased investigation and study of the Cooperative Marketing bill, which recently failed to receive the Governor's approval, for the purpose of strengthening the bill or for the making of an entirely new bill which would seek to safeguard the interests of the farmers in the marketing of their products.

3. That the Indiana State Farm Bureau Federation and Purdue University agree to cooperate closely not only for the study of the afore mentioned bill, or bills, but for the purpose of assembling all pertinent evidence relating to legislation and experience in other states, to the end that Indiana may have at the earliest possible moment such cooperative marketing legislation as will protect the agricultural interests and promote the general welfare of the state.

4. That any attempt to make a political issue of cooperative marketing, by either individuals or parties, will inevitably result in the weakening of the movement for co-operative marketing.

FIFTEEN YEARS
AGO TODAYFrom The Daily Republican
Friday, April 10, 1908

Daniel L. Spivey and two sons Vernon and Karl, will leave tomorrow afternoon for Hazel Green, Cal., where they will spend the summer. His oldest son, John Spivey and family live there, where John is in charge of a summer resort. The last thirty-five miles of the trip is made through the mountains by stage.

Frank Bender, a bushmann, tailor and tinsmith, was presented with a bird dog by Clell Maple, which was born on the day Watson was nominated as gubernatorial candidate. Of course the dog will be called "Watson."

The preliminary oratorical contest for eligibility as a contestant in the Central Indiana Oratorical contest, which is to be held in Lebanon, May 8, will be held tonight at the high school auditorium. Rushville has only two contestants Miss Louise Manz, who will speak on "Cosmopolitanism," and Ward Hackleman whose subject is "Renaissance," and the contest will decide tonight on which of these two will represent Rushville in this contest which includes besides this city, Lebanon, Frankfort, Union City, Franklin and Crawfordsville.

Harry R. Overton, business manager for the Gentry Bros. Famous shows, was in this city yesterday paving the way for the exhibition at Rushville on Friday, April 24.

This morning in the various townships of the county the men chosen started the work of the enumeration of the school children.

Guy Abercrombie went to Leavenworth, Kansas, yesterday to assist his mother in settling up her sister's estate. He will be gone about three weeks.

Rush Budd and Ralph Payne attended the Shriner's meeting at Indianapolis today.

Manley Pearce, an enthusiastic Shriner, has made wooden souvenirs for the Shriner event tonight out of bird's eye maple, which are very clever.

Will Alexander received his new automobile today over the C. H. & D. from Chicago.

John Cowan's team, hauling a load of hay, became stalled this morning at the corner of Third and Morgan streets in a sewer hole and pedestrians were called upon to help him out.

R. H. Jones and family will remove from the Carrol property in East Sixth street to the Carmichael property in North Main street.

Mrs. Levi Retherford and son Ford are at Swazee, Indiana, where they were called by the death of Mrs. Retherford's sister-in-law, Mrs. Will Retherford.

WOMAN SO ILL
COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

Glens Falls, N. Y.—"For over two months I was so sick I was not able to stand on my feet, and my husband did my housework. The doctor said an operation might be necessary. I read testimonial letters about Lydia E. Pinkham's Vegetable Compound and began to take it. Before I had finished taking the first bottle I saw what good it was doing me. I am now well and strong, doing all my work for a family of four, all my washing and my sewing, which I think is remarkable, as I had not dared to run my sewing machine, but had done all my sewing by hand. I truly feel that were it not for your medicine I would not be here today as my case seemed very serious."—Mrs. GEORGE W. BURCHILL, Glens Falls, N. Y.

Free upon Request
Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free, upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information that every woman should have.NOTICE OF FINAL SETTLEMENT OF ESTATE
Notice is hereby given to the creditors, heirs and legatees of John Poppon, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 24th day of April, 1923, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved, and said heirs are notified to then and there make proof of heirship and receive their distributive shares.

WITNESS, the Clerk of said Court this 2nd day of April, 1923.

WOMEN VOTERS LEAGUE
TO DISCUSS PROBLEMS

Annual Convention of League of Women Voters To Convene Today For Week's Deliberation

MAY BE A SHARP DIVISION

Des Moines, Iowa, April 10.—Big problems for the women voters of the United States will come before the annual convention of the League of women voters, which convened here today for a week's deliberation. The league will probably decide:

Whether the organization shall in future endorse candidates for political office;

What part the league shall play in the international peace agitation; Whether the league shall give official support to the league of nations;

Whether the league align itself with the National Woman's Party and, if it is to draw closer where the line will be drawn.

There is likely to be a sharp division, it is indicated, between the Republicans and Democrats in the nominating committee for league officers. Mrs. Maud Wood Park president, will hold over for another year. But seven original directors will be selected, as well as two vice presidents and a treasurer.

The Hodge-Podge
By a Paragrapher with a Soul

Where there are brewers, there is generally something brewing.

The dry humor of the prohibition jokes is not always appreciated.

A butcher takes little thought of the marrow.

When booze running becomes too precarious, bootleggers might profit by the experience they have gained by taking up the profession of grave digging.

Few people are interested in how you got your money—their greatest interest lies in getting some for themselves.

Dead men tell no tales, but their tombstones are sometimes awful liars.

A movement toward the hip is more deadly than it used to be in the days of the wild and woolly west.

Notice of Election.

A meeting of the stockholders of the Rushville Co-operative Telephone Company will be held in the Assembly Room of the Court House, in the City of Rushville, Ind., at 7:30 p. m., Friday, April 13th, 1923, for the purpose of electing three directors and the transaction of such other business as may come before the meeting.

M. V. SPIVEY, Sec'y.

March 20; 22; 24; 27; 29; 31.
April 3; 5; 7; 10; 12.100 WAYS
To Make Money

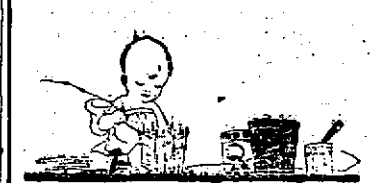

By BILLY WINNER

If I Could Make Wastebaskets—

MOST wastebaskets are anything but decorative; that is why really artistic baskets are always saleable. Baskets to match the color scheme of a room are now in vogue, and any one who is clever with paint and brush has at hand a source of extra money.

If I could make wastebaskets; that is, weave the reed or paint them attractively, I could dispose of my output in a short time—provided I advertised.

The logical way to advertise would be with a Daily Republican Want Ad. I would call 2111 and start my Want Ad scouting around for me at once.

The Middle West
Requires One-Third
The World's Supply
of Gasoline

NEARLY one-third of all the motor car registrations in the world are in the 10 Middle Western States served by the Standard Oil Company (Indiana).

This amazing fact—for it is a fact—is shown by these, the latest figures published by the National Automobile Chamber of Commerce:

World registration of motor vehicles (1922)	12,750,000
U. S. registration of motor vehicles (1922)	11,500,000
Percent of world registration owned in U. S.	90%
Motor vehicle registration in 10 Middle Western States served by Standard Oil Company (Indiana) (1921)	3,514,436
Motor vehicle registration in 39 other states of the U.S. (1921)	6,899,253
Percent of U. S. registration owned in the 10 Middle Western States	31%

And yet, in the face of these astounding figures, the retail price of gasoline is low in the Middle West.

The reason for this is obvious.

The Standard Oil Company (Indiana) has six great refineries where gasoline is manufactured in sufficient quantities to meet the major part of this demand.

The process used in these refineries enables the Company to get from crude oil a large yield of good gasoline.

Throughout this territory the Standard Oil Company (Indiana) maintains an adequate and economical system of distribution, which enables it to maintain its established practice of selling its products at a price which is fair to all.

This Company's policy of fairness and its earned reputation for efficiency have enabled it to command ample capital for needed expansion of refinery facilities; for needed storage and equipment; for proper maintenance of tank wagon service and for a constantly increasing number of service stations, which permit the Company to deliver its products directly to the motorist.

The low price of gasoline in the Middle West is tangible evidence of the fairness, foresight, efficiency and skillful management which has put the Standard Oil Company (Indiana) in position to be of maximum service to the people owning one-third of the motor registrations of the world.

LOCAL RIFLE TEAM SCORES 903 IN SHOOT

Rushville Sportsmen Loud In Their
Praise Of Treatment At Culver
Military Academy

ANNUAL INDOOR MATCHES

The Rushville rifle team was back home today after participating in the annual indoor matches of the Indiana State Rifle association held Monday at the galleries of the Culver Military academy, which brought twenty-eight teams into action and resulted in the highest team score that has ever been in an Indiana state meet.

To team No. 1 of Culver Military academy goes the honor of winning the team match with the high score of 938 out of a possible 1,000. In this match five men constitute a team, each man shooting twenty shots from a prone position at a range of fifty feet. The cadets on the winning team were Caldwell, Seun, Barada, Cheatham and Pitts, the first three of whom shot perfect scores.

The Rushville team scored 903 out of a possible 1,000, with the individual members scoring as follows: Sam Finney, 189 out of a possible 200; Will Leach, 185; Lote Carter, 177; Paul Danbensen, 177; Dr. P. H. Chadwick, 175. The Rushville team has been practicing at the national guard armory here.

The local sportsmen attending the meet were loud in the praise of the treatment accorded them. They slept in the barracks of the military academy Sunday night and were provided with meals at the academy. A parade was held Sunday evening, followed by an address on the subject, "Science Vs Religion".

They met Basil Middleton, former Connersville man, who is a lieutenant major at the academy and is in charge of the rifle instruction, and who is known to many Rushville men.

BOWLING CONGRESS COMES TO A CLOSE

Three Records Broken in Last Thirty
Days at National Meet, Including
1926 Teams

PRIZE MONEY AT \$84,000 MARK

Milwaukee, April 10—The American Bowling Congress, participated in by more than 10,000 American bowlers and 1,956 teams, closed here late yesterday with three records broken in the last thirty days.

The first record in the team event was set by the Chaman Dairy Lunch of Indianapolis, with 3,115, but a minute later the Nelson-Mitchells of Milwaukee finished with 3,139 the event high.

C. Daw and F. Wilson set a new mark in the doubles with 1,358. Three times the all events mark was lowered. Marion MacDowell of Cleveland started with 2,003 and then Charlie Daw, Milwaukee set up 2,014. William Knox, Philadelphia scored 2,019.

High individual score was 279 held by a number of contestants. High team game of 1094 was shot by the Chaman Dairy Lunch of Indianapolis.

Prize money will run about the \$84,000 mark.

SPORT CHATTER

New York—Darnmouth's nine stopped off long enough on its way home from a southern training trip to defeat Columbia 7-4.

Boston—Local boxing officials have assured fans that the Johnson-Fulton bout which met with disapproval of Mr. Malden of New York, will be held not withstanding the boxing commissioner's displeasure.

Cambridge, Mass.—Harvard's baseball team defeated the Connecticut Giants here today 6-5.

New York, April—As a result of the ruling of the New York boxing commission, Floyd Johnson, Luis Firpo, Jack McAuliffe, Jess Willard and all other boxers signed for the milk fund bout here May 12 in any bouts or exhibitions before the war.

Mexico City—Sam Langford successfully defended his title as Mexican heavyweight champion when Andres Blazas, Spanish champion broke his hand in the sixth round and could not continue. Langford was floored in the fifth.

Standing Pat With Cards

By HENRY L. FARRELL

(United Press Sports Editor)

New York, April 10—It is probable that the good people of St. Louis are still hoping for a National League pennant. They have been hoping for three years, and game fans never give up. So, under the circumstances, it will not be a disappointment if the Cards fail to come through in the 1923 pennant race, as they have become almost habitual failures.

Last spring a great many good baseball judges picked the Cardinals to beat out the Giants for the National League pennant. They not only failed to win the league championship, but they were crowded out of second place by the fast-finishing Cincinnati Reds and almost squeezed out of the third hole by the resuscitated Pirates.

It is impossible to explain the reason for the flop of the Cards last year without entering into a criticism of the managerial methods of Branch Rickey and, for the same reason, it is equally impossible to make an accurate forecast of what the club will do in the coming pennant race.

The loss of McHenry, a star outfielder, who was ill all season and who died after the season had closed and the utter collapse of the pitching staff, were two apparent causes for the failure of the Cards after they had been worked up to their top form and first place in the latter part of July.

The brain malady which came upon McHenry was a very bad break, both for the player and the club,

and it was something, over which Rickey had no control, but the poor work of the pitchers was attributed by several of his players as being due to very poor judgment of their manager.

The players also criticized Rickey for using McCurdy, a young catcher, behind the bat in several critical games; for benching Fournier and using Bottomly, a rookie, on first base, and for using another rookie, Blades, in the outfield, when he had more experienced players on the bench.

It must be admitted that Rickey knows baseball, and that if the critics among his players knew as much as he did that they would not be players. But, on the other hand, the evidence tends to indicate that the players might have been at least partially right in their criticism.

Rickey, at various times, has held himself up as the outraged victim of the money demon, who helped the New York Giants win pennants. Several seasons ago, when the Giants were reported to have offered \$200,000 for Rogers Hornsby, Rickey said that he would never sell a great ball player and neither would he buy one.

For this reason the Cards have not been strengthened since the close of the last season. Even down to the Athletics and the Phils, most of the major league clubs opened their purse-strings last winter and went after ready-made products. Rickey still goes along with the idea that he can develop young players, and you can count up on your fingers the young players who have been developed by major league clubs since the war.

DICK BYRNE SIGNS WITH GREENSBURG

Former Tail Light Catcher Will do
The Receiving for the Eagles
This Season

WANTED TO PLAY BALL HERE

Dick Byrne of this city, well known baseball player, has signed a contract with the Greensburg Eagles for the coming season, and will do the receiving. The Rushville player held back on signing, with the hopes that some one locally would organize a team here, as he would rather have played ball on a Rushville team. The following from a Greensburg paper, comments on the team of that city.

Several rumors have been going the rounds that Volney Lambert, the popular first base man of the local Eagles base ball club for the past few seasons, was to play with Columbus this year. This is absolutely untrue. Lambert is to play with the local team all reports to the contrary notwithstanding. The battery for the Eagles has also been secured and will consist of George Hall, pitcher who was with the Newcastle team last year, and who made such a favorable impression on local fans last year, and Richard "Dick" Byrne of Rushville, on the receiving end. Byrne played with the Rushville Tail Lights two years ago and is a conscientious, hard-working and hard-hitting catcher, who will quickly win a warm spot in the hearts of local base ball lovers.

The management is in touch with a number of good players for other positions on the team and the fans can rest assured that the team that steps out on the local in Eagles uniforms this year will be a fast one and will hold its own with any of the surrounding towns.

FIGHT RESULTS

Boston—Ed Gleason of Los Angeles knocked out Herbert Cronin of Cambridge in the first round of one of the national amateur championship preliminary bouts here. Vic Dallas of East Boston outbought Charley Alie of Indianapolis.

Beaver Falls, Pa.—L. O. Jitney of Beaver Falls defeated Jimmy Danforth of Beaver Falls, Ohio. Chicago—Alvin Karpis defeated Ed Johnson of Chicago. Harold Smith and Eddie Conlin, draw (10).

BARNSTORMING

Chattanooga—Long George Kelly's two homers gave the Giants their sixth victory over the White Sox 5-2.

Oklahoma City, Okla.—Baseball of the variety they displayed during the last world's series was offered to a crowd of 7,000 by the Yanks here yesterday, Brooklyn winning 4-1. Babe Ruth, the big attraction, failed to produce more than a single.

Evansville, Ind.—Lefty O'Doul, southpaw, pitched well for the Red Sox first team, which took the Yankigans into camp 5-3.

Savannah, Ga.—The Braves defeated Washington in an exhibition game 4-1.

Memphis, Tenn.—The Pirates scored eight runs in the third inning and easily defeated Memphis 13 to 8.

Huntville, Ala.—The St. Louis Cardinals handed Ty Cobb's Tygers a good beating yesterday, winning 6-0.

Wichita Falls, Tex.—The Chicago Cubs defeated Wichita Falls, Texas Leaguers 9-3. The Cubs' pitching staff is "tightening up" and indications point to a stronger list of boxmen than usual.

New Orleans, La.—The St. Louis Browns, without a regular exhibition game on the schedule, suffered much abuse from Boss Lee Fohl for their poor brand of baseball Sunday. Fohl drove youngsters and veterans alike through the stiffest practice drill of the season.

New Orleans—Speaker plans to call upon Covelsich, Smith, Morton and one other pitcher to show whether they are ready to go the full nine inning route. They will be used in the two regular-yamigan games and in a four game series with the Pelicans.

PAY TELEPHONE TOLL

Don't overlook to pay your telephone toll before April 12 if you wish to avoid paying 15 cents extra for collection. No notice will be given by telephone. M. V. SPIVEY, Secretary.

Single G. Wonder Horse, Wins \$87,170 in 10 Successful Seasons

William B. Barefoot of Cambridge City, Owner, Says That He Will Race Wonderful Old Pacer Against Any Harness Horse in the World.

"The Horse That Time Forgot" is the way that the horseman poet, Walter Palmer, sets forth in a poem dedicated to Indiana's famous race horse, Single G (1:59), and is indeed a fitting tribute to the world's greatest race horse, says E. L. Churchill in the Cincinnati Enquirer.

Single G is owned by William B. Barefoot of Cambridge City, who announces that he will race the stallion against any harness horse in the world over a mile or a half mile track. Only two horses living could answer this call viz., Peter Manning (1:56:3-4), trotter, and Margaret Dillon (1:58-1), pacer, and followers of harness sport would more than likely have their money down on the Indiana pacer should they happen to meet.

A horse that can race for 10 consecutive seasons against the pick of the land and come out sound, unblemished and with \$7,170 in purse and stakes money to his credit, which amount is outside his starts against single, must be classed as a racing machine with no equals. Single G first gained the attention of the racing public in 1913, the horse being then a three-year-old, and in eight races he pulled down a

first monies and the same number of seconds, securing a record of 2:12-1, and placing \$2,375 on the right side of the ledger. The year 1914 saw him in 15 races; 11 times that year he was a first money winner; three times he was second and once fourth, with \$5,630 as his share of the purse money.

His record that year was reduced to 2:07-1, and in 1915 he cut his mark to 2:02:3-4, and won \$10,245 for his owner. Seven first mounts, two seconds, the same number of thirds, and one fourth were his places on the race summaries during 1915.

Purses were small in the fast classes in 1916, the Indiana bearing that year hooking up with the free-for-all brigade, and he only accounted for \$6,565 in 14 races, of which he won five, was second in seven and third in two, closing the season with a record of 2:00 flat. In 1917 his fastest mile was 2:00:3-4, with \$6,795 to his credit in purse money and in the 12 races that year he pulled down seven firsts monies, two seconds, one third and twice unplaced, the only time in his entire racing career that he was outside the money.

He paced some good races in 1918 winning 11 firsts, three seconds, a third, and \$9,898 in real money. After four seasons of hard campaigning, he again reduced his record, and his owner had the pleasure of seeing his great horse enter the famed two-minute circle, 1:59:3-4 being his

new time, and it was made during the racing season of 1919. That year he only started in nine races, yet he pulled off three firsts, five seconds, a third and \$6,181.

In 1920, when Single G set a new world's record for three heats in a race (he also holds the divided heat record of 1:58-1, 1:59-1, and 1:59:3-4 his only three heats ever raced under two minutes, horsemen gave it as their opinion that the son of Anderson Wilkes (2:21) was just about through as a fast horse, but the "wonder horse" has given them many a hard jolt since then.

The season of 1920 saw him in 12 races, 10 of which he won, being second and fourth in the other two, and tucking away with another tidy sum for his owner, \$8,735. In 1921 he again paced in 1:59, that being the year he pulled down a real bundle of coin, \$20,005 in 12 races, 11 of which he won and one being second money. The prophets of 1920 were away off when they figured Single G a dead one, as his greatest triumphs on the turf were in 1921, and 1922 saw him again in seven races, all of which he won, and \$9,500 to add to his bank roll.

Back in 1913 when Single G first started racing he had as his trainer and driver Howard Vickery, of Cambridge City, Ind. The next year the late Curtis Gossnell, of the same city, acted as his pilot. To the close of the racing season of 1918 he had a number of different drivers up behind him, viz: the late Fred Jamison, Ed F. Geers, Walter Cox, Harry Stokes and Charles A. Valentine. Ed Allen, of Indianapolis, Ind., took the horse into his stable in 1919, and he has driven him

in all his racing and exhibition engagements since.

When one starts to recapitulate the entire racing career of Single G it is then that his greatness as a campaigner is realized. For instance, he has started in no less than 115 races, in 74 of which he pulled down first money, 28 times was second, 7 times third and only twice unplaced. He has paced 52 miles in 2:03 or better, 57 in 2:02 or better, 24 in 2:01 or faster and 9 times he has paced miles in 2:00 or faster.

The old pacer has many peculiar habits; for instance, when his driver brings him to score for a race he will come plodding along, and finally refuses to be hurried unless he has a position of advantage while coming down to the wire with a field of horses, but once away to a good start he is all nerve like a thunderbolt to the front like a thunderbolt of flesh and blood.

He begs his chewing tobacco every morning, usually getting it from his owner, trainer and groom, and for all of them he seems to show real affection, and his mascot, a little Scotch terrier, is never forgotten.

DANCE

Good Music Always a Good Bunch

Wednesday Night APRIL 11th

The M. E. choir will meet tonight at 7:30 o'clock at the church for practice.

The meeting of the S. E. T. club, which was to have been held Wednesday afternoon, has been postponed for two weeks.

The W. R. C. will meet in the Grand Army room of the court house Wednesday afternoon at two o'clock. A good attendance is desired.

Miss Egie Thomas will be hostess to the members of the Woman's Home Missionary Society of the St. Paul's M. E. church Thursday afternoon at her home in North Morgan street.

Mr. and Mrs. Eli Lucas entertained at their country home north of the city Monday evening in honor of Mr. and Mrs. Raymond Wright and family of Omaha, Neb. The guests were Mr. and Mrs. Raymond Wright and children, Mr. and Mrs. William Stout of this city and Mr. and Mrs. W. H. Hudson and Oliver, Lloyd and Marvin Hudson. Music was furnished on the piano and violin by Mr. and Mrs. Stout.

Mr. and Mrs. Gilbert Bramel entertained at their newly furnished home near Gwynneville Sunday with a dinner party. The guests were Mr. and Mrs. Raymond Edwards and family, Mr. and Mrs. Harley Reynolds and son, Mr. and Mrs. Milford

Mr. and Mrs. Macola Newkirk entertained the members of the Progressive Boosters class of the First Baptist church Monday evening at their home in West Tenth street. The class enjoyed a splendid evening, an unusually large representation of the class being present. A short business meeting was held during which arrangements were made for a box social to be held in the church in the near future. A social hour was enjoyed following the business meeting and light refreshments were served.

Mr. and Mrs. Henry Alsop and family entertained with a pitch-in dinner Sunday at their home in West Fifth street. At the noon hour the delicious pitch-in dinner was enjoyed by Mr. and Mrs. Earl Heath and daughter Mary Emma Mr. and Mrs. J. H. Womeldorf and family, Mr. and Mrs. Palsgrove and family, Mr. and Mrs. Willard Rea and daughter Della, Miss Florence Alsop and Harley Hodd, and the Rev. Mr. Cable of Louisville, Ky.

The Ladies of the First Presbyterian church are giving a dollar social to be held in the parlors of the church April 13 at seven o'clock. This will take the place of a penny supper that was to have been given. All the ladies of the church are asked to contribute. The meeting will begin at seven o'clock sharp and the social will follow at 7:30 p. m. The gentlemen of the church are invited to attend the social and program to be given.

Mr. and Mrs. Sam Brown entertained at dinner Sunday, Mr. and Mrs. John English and family, Mr. and Mrs. Charles English, all of near Homer, Mr. and Mrs. A. F. English and Hugh English of Shelbyville. The occasion was in honor of Mrs. Brown's birthday. The day was pleasantly spent by those present, the guests being brothers of Mrs. Brown and their families. Mr. Brown who has been in poor health for some time, was able to participate in the festivities.

CITY BUILDING

BULGIN'S THEME

Continued from Page One

Rushville people how the recently built in Indianapolis at the cost of \$315,000, the finest tabernacle in America.

"I had the pleasure," he told Rotarians today, "to stand in that tabernacle, with my arms about my old mother, and dedicate the tabernacle to her and to God."

"I have tried both hands, boys," he declared, "and the hand I am playing now is the one that wins, not only for this life, but for the life that is to come."

"You fellows are treating me and Cadie like dogs," said Dr. Bulgin, when he arose to speak. "You fellows come here with the privilege of paying for your meal and sitting down and eating it, but you make us stand up on our hind legs and bark for ours."

Dr. Bulgin, in discussing the city of the future—the four-sided city—predicted that in 25 years the slogan in America will be changed "from making billionaires to service."

He enumerated the four sides to a city as business, educational, hygienic and moral and spiritual.

"In the business side of a city," the speaker asserted, "we need men, money, markets and morality. We need men with a realization of their civic duty. Webster says that civic duty is a citizen doing right. The four-square city is built out of honest advertising and honest boosting—it is a city free from knockers. The coherence of men and women working together is essential."

Dr. Bulgin said that the hygienic side is necessary in a four-square city because no community can prosper unless its inhabitants are healthful. He asserted that citizens should not shunt all the responsibility to the physicians and the health board but should make it a part of their business.

"I would rather have you gouge out the eyes of my boy than to gouge out his ideals," asserted the evangelist, in appealing for proper thinking and proper training of your people while discussing the educational side of a four-square city.

"The greatest danger of this age is the way we are permitting our

Irregular Hem

The irregular hemline that was so popular it swept the streets from dawn to midnight is seen only on afternoon and evening dresses now. On these it is still very much in vogue and is developed in new and unexpected ways. The three afternoon gowns sketched show these uneven hemlines—one a wide overlapping panel, another many long shirred panels, the third godet inserts.

ARSENIC CASE NEARS END

Trial of Chicago Woman, Charged With Giving Poison, About Over

Chicago, April 10.—Trial of Mrs. Nellie Sturmer Koulik, charged with holding "arsenic parties" for husbands and relatives, drew speedily near a close today after the prosecution called three of her sons and a daughter to testify against her.

Mrs. Koulik, a cousin of Mrs. Tillie Klimek, convicted in connection with the poisonings and sentenced to life, is on trial on a charge of poisoning her first husband, Wokiceke Sturmer.

The woman's children, telling of home life, declared Mrs. Koulik took the part of Albert Koulik, a boarder in heated arguments between Sturmer and Koulik. She married Koulik after her first husband died.

CAR HITS MOTOR TRUCK

Indianapolis, Ind., April 10.—One man was seriously hurt and another suffered a broken nose and thirty-five passengers were shaken up when a southbound Interstate traction car struck a motor truck three miles north of Franklin today. The car was derailed.

Nashville—The Brown county council refused to approve bids for a new jail. Historic log jail has been condemned as unsafe and unsanitary.

BIRTHS

A baby boy was born Sunday to the wife of Paul Morgan at the home of her parents, Dr. and Mrs. H. P. Metcalf, in New Salem. The baby was named Paul Edward.

A baby boy was born this morning to the wife of Edmund Barry at their home in West Tenth street this morning. The baby was named James.

TO BUILD BIG POWER PLANT

Lafayette, Ind., April 10.—Word was received today by Dean A. A. Potter of the Engineering schools at Purdue University that J. P. Hudson, a graduate last year, has been selected to act as engineer in the construction of the new \$450,000 Public Service Power plant at Waukegan Ill. Hudson, formerly a resident of Allegheny, Pa., graduated from the Civil Engineering school at Purdue University with the class of 1922 at the age of 39. He had worked for 15 years between his freshman and sophomore years on practical construction work of all kinds.

PRODUCERS HANDLE HOGS

Chicago, April 10.—Lowery and Kemple of Homer, Ind., were on the Indianapolis market last week with a carload of hogs consigned to the Indianapolis Producers Commission Association who sold the bulk of the load at \$8.65. This firm handled 20 of the 73 cars on that market on that day.

100 WAYS To Make Money

By BILLY WINNER

If I Could Play the Piano—

THERE is plenty of extra money waiting to be carried off by good piano players. It is funny how many people "play at" the piano, and how very few really can play a piano as it should be played.

I know very well that if I could play as well as lots of people I have envied, I would make it a point to get a well-worded Daily Republican Want Ad in tomorrow's paper. Just think of the parties, dances, entertainments and other festivities I could take part in, once I had my name before the thousands of Daily Republican readers. The best part of it is that such an ad would cost me only a few cents, and it would be bound to bring results.

ROADS POINT TO SPRING TOURING

Highways in Almost Every Section Of The Country Indicate Heavy Traffic Soon

BETTER NOW THAN USUAL

Some Roads Are Still Winter-Bound With Snow, But Others Are Opened For Travel

(By United Press)

The spring touring is opening with automobile highways throughout the country generally in better condition than usual according to a survey by the United Press.

Dispatches from many cities show that while soft roads are still under snow in the north most show that trunk lines are in good shape.

East

In New York paved roads are in good condition except in the northwestern part in vicinity of the lakes where there is still snow and ice. New England is still largely winter-bound. More than 100 important Massachusetts highways are closed to trucks carrying more than 10,000 pounds but open to passenger cars. Maine, New Hampshire and Vermont roads are good. All new construction in Delaware is finished, and work is projected to close the 11 mile gap in the Dupont Highway running from the Northern to the Southern boundary of the state, 100 miles. Macadam paved routes are in good condition. State trunk highways in Pennsylvania are generally good with only two detours. An unusual number of frost "boils" have appeared on the Macadam due to the hard winter. Intensive repair work is in progress.

South And Southwest

Construction is being pushed throughout the tidewater section of Virginia and several detours are necessary. The general condition of roads in this area is unusually good and even the detours are in good shape. The Dixie highway through Georgia is excellent. A ten million dollar building program is under way. The Motor League of Louisiana reports the Jefferson Highway and Old Spanish trails ninety per cent complete, except for damage caused by recent rains. There is now a clear auto outlet to Texas, and through Mississippi to Tennessee. Roads in the vicinity of Dallas are fair, only one being impassable. One new route, one hundred miles, is open. General conditions in Oklahoma are good.

DOINGS OF THE DUFFS

ANDERSONVILLE

Raymond Shrewood and family and Clifford Spacey were the Sunday guests of Mr. and Mrs. Walter Shrewood and family.

Mr. and Mrs. Noland Clark and sons visited Mr. and Mrs. Raymond Mr. and Mrs. Fred Krugg.

FAVORS PROGRAM TO FIGHT RADICALS

Department Of Public Instruction
Believes It Is Schools' Duty To
Render Service

ASK CITIZENSHIP TRAINING

Bar Association Wants Training For
More Enlightened And Loyal
Citizenship

Indianapolis, Ind., April 10. — "The state department of Public Instruction is strongly behind the program of the Indiana State Bar Association in its effort to combat radicalism," said Ben J. Burris, state superintendent of Public Instruction, today. "Officers of the department believe not only that the schools can render a distinct service in this direction, but that it is their duty to do so."

Burris made the foregoing statement in connection with an appeal to county and city superintendents, high school principals and teachers of English, history and social science throughout the state. This appeal called upon the school heads to emphasize in the high school courses of study the matter of training in citizenship, in its social and political phases. The appeal is made at this time, Burris said, in order that plans may be made for the incorporation of citizenship training in the courses of study for next year.

"If it is simply a causeless discontent that now afflicts us," said Burris, "Then the schools can do much to undermine this condition. On the other hand, if there be causes for the discontent, then the schools should attack the problem of the causes and help in their ultimate removal. Neither result can be accomplished in a year, but only in educational generations or efforts. But the slowness of the process will render it more permanent in its results."

"Pupils in our high school can and do master the fundamentals of many sciences and of much literature, mathematics and history. There is no reason to believe that the fundamentals of citizenship cannot be taught. But teaching the facts alone will not insure results. Something that generates and appreciation of and an enthusiasm

COUNTY QUOTA IS SOUGHT BY APR. 20

These Who Wish to Give Corn For Near East Relief Asked to Take it to Nearest Elevator

4600 BUSHELS SOUGHT HERE

Tragedy and Distress in Bible Lands Described in Bulletins Received by County Agent

Picturesque tragedy and distress is told in bulletins being received by D. D. Ball, county agent, who is seeking to raise Rush county's quota in the appeal for grain to feed the starving in the Near East. Following is a sample:

"Today's ship load of exiles from Asiatic Turkey—Christian people deported by the Turk—increased to 32,000 the total number of refugees at Constantinople. In the harbor crowded with twenty-one war ships of seven different nations, are four refugee ships crammed with deportees from Asia Minor. Afloat and ashore smallpox, typhus, dysentery and pneumonia go unchecked. Yesterday's death toll in Bosphorus camps was 72. On one ship enroute 200 died out of 2,500 and Dr. Wilford Post of Princeton, N. J., called it a 'Black Hole of Calcutta.'"

"At Scutaria where the worst conditions prevail 10,000 deportees are existing in barracks and stables. Deaths average twenty-five daily. Dr. Post on his rounds counted 100 dead bodies. Wrapped in bundles of rags, death had come days before the living knew it. One room contained 53 bodies. Refugees were afraid to bury them for fear of contracting disease. Three thousand people who a few weeks ago were prosperous farmers in Anatolia, live on mud floors of stables where many of them become staring skeletons from undernourishment and are waiting to die. Children are brought into the world a few feet from where the village priest offers prayers over the dead."

Turkish gendarmes who guard these concentration camps have strict orders from the Ankara government prohibiting taking photographs."

Rush county is asked to contribute 4600 bushels of corn, or its equivalent in money towards relieving the suffering of these orphans, and workers are at work in the townships asking farmers and others.

\$50 PRIZE IS OFFERED

First Winner in Ton-Litter Contest Reported Will Get Purse

Indianapolis, Ind., April 10—To stimulate greater interest in ton-litter contests conducted under the auspices of the county agents, The National Spotted Poland China Record, through Secretary Fred L. Obenchain, has announced that the Record will pay a cash prize of \$50 to the first Spotted Poland China winner in any ton litter contest in any county in the corn belt states. The prize offer is similar to offers made by the Big Type Poland and the Duroc associations and is intended to make the ton litter contests this year among the most important swine exhibits. To win, the litter must weigh more than 2,000 pounds and the contest must be directed by officials of any state agricultural committee or the county agent.

SALT POISONING IS VERY COMMON

Stock Foods of Common Salt and Sulfate of Sodium Given in Large Amounts Poisoning

EXPERIMENTS TEST EFFECTS

Facts Obtained Suggest Possibility of Impurities in Salt as Being Responsible for Poisoning

By L. R. GEORGE
(Purdue Agricultural Exp. Station)

Salt poisoning is considered to be a very common cause of poisoning in hogs. In most cases the circumstantial evidence seemed to furnish conclusive proof that the animals had obtained an excessive amount of salt that caused a great mortality in the herd.

Stock foods that are principally a mixture of common salt and sulfate of sodium, when mixed with the feed or given in large amounts to hogs that have not had free access to salt, has resulted in so-called salt poisoning.

In many cases this occurred immediately after the hogs were vaccinated. Any change of ration immediately after hogs are vaccinated is a very bad practice and should be avoided, as such a change may irritate the stomach and intestines, weaken the hog, and make it impossible to feed.

CATTLE BREEDERS TO MEET APRIL 27

Factors Affecting Business Situation and Prices to be Important Subject at Purdue Meet

DR. HIBBARD TO SPEAK

To Study Results of Experiment to Determine Whether it is Profitable to Feed Protein

Factors affecting the business situation and their probable effect on the prices of livestock will be an important subject for discussion at the annual spring meeting of the Indiana Cattle Feeders' Association at Purdue University, Lafayette, Ind., Friday, April 27. Dr. B. H. Hibbard, noted agricultural economist of Madison, Wis., will be the principal speaker and lead the discussion. He is a speaker and author of national reputation and an authority on farm economy, besides being a practical farmer, having operated his own farm near Madison for many years.

Those attending the meeting will have a chance to study the results of an experiment to determine whether it is profitable to feed a high protein concentrate with corn, clover hay and silage. They also can gain some idea as to whether it is more profitable to grow such feeds than to buy them.

One group of cattle in the feeding experiment is getting corn, clover hay and silage. Another lot receives cottonseed meal along with the foregoing ration; another group is fed soybean oilmeal; another whole soybeans and still another lot gets whole soybeans and a mineral mixture. This last lot will be especially interesting in view of the exceedingly favorable results obtained from the use of soybeans and minerals in fattening hogs.

There are 70 head of steers, divided into seven lots of ten each, and at the time of the meeting will have been on feed 150 days. They will be finished and will be sold shortly after the meeting. The visitors will inspect these animals personally after studying the different rations, and they can study the results shown in the condition of the steers of the effect of the various feed combinations.

Several hundred feeders from over Indiana are expected to attend. Ray C. Morgan, of Knightstown, is president of the association.

ENDORSED BY THE ADMINISTRATION

POULTRY HIGH IN FOOD EFFICIENCY

Hen Follows Cow and Pig as Producer of Human Food, But Leads in Making Profits.

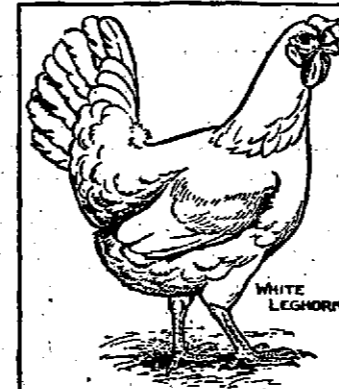

EFFICIENT ON THE FARM

Picks up and Makes Use of Large Quantity of Feed That Would Not be Otherwise Utilized

By SETH W. SHOEMAKER
Director, The School of Agriculture, International Correspondence Schools, Scranton, Pa.

In these days when efficiency is eagerly sought after and extolled many extravagant statements are made in regard to the efficiency of farm animals in producing food for mankind.

Although there are various ways of figuring this, the following table, compiled by one of the highest feed authorities in the country, will prove interesting reading, showing human food produced by farm animals from

Animal	Product	Solids
Cow (milk) --	139.0 lbs.	18.0 lbs.
Pig (dressed) --	25.0 lbs.	15.6 lbs.
Cow (cheese) --	14.8 lbs.	9.4 lbs.
Calf (dressed) --	36.5 lbs.	8.1 lbs.
Cow (butter) --	4 lbs.	5.4 lbs.
Poultry (eggs) --	19.6 lbs.	5.1 lbs.
Lamb (dressed) --	9.6 lbs.	3.2 lbs.
Sheep (dressed) --	8.3 lbs.	2.8 lbs.
Sheep (dressed) --	7.0 lbs.	2.6 lbs.

According to the figures of this table (which, of course, presents only one side of a rather difficult problem,) the cow easily leads all other domestic animals as a producer of human food. A cow for 100 pounds of digestible nutrients in feed will

MILFORD PIG CLUB LARGEST IN STATE

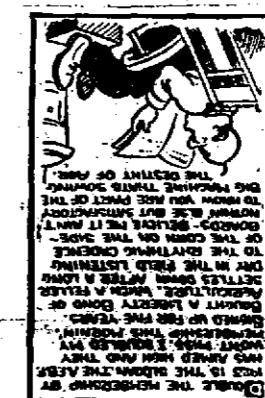

More Than 500 Members Have Received Spotted Poland Chinas in The Past Ten Days

HUNDRED ON WAITING LIST

Milford, Ind., April 10—Milford, a small town in Kosciusko County is the home of the largest boys and girls pig club in the world. In the last ten days more than 500 members of the club have received a Spotted Poland China gilt, from James T. Shepard, a banker of Milford who has been directing pig club work for many years. More than 100 other boys and girls in the county are waiting for the next distribution, and before the middle of April, the club will have a membership of over 600. The boys and girls will repay Mr. Shepard from the offspring of these gilts.

Many boys and girls of Kosciusko County during the last few years have started herds from membership in this club and are now paying their way through college. Nearly every boy and girl within a radius of ten miles of Milford have their own bank account—savings from money made through pig club membership.

HEZ BARKER SAYS

Resolutions approving the grain appeal were adopted by the District Farm Bureau at a meeting held at Crawfordville, after M. K. Kelsey, Near East Relief Secretary, had told the story of orphan distress.

Near East Relief is actually caring for 115,000 children. These little folks ask for a chance to live. Our answer must be 4600 bushels of corn.

THREE FACTORS IN SAVING PIGS

Good Breeding, Proper Management and Feeding Produce Results on Jesse Gray Farm

RECORD MADE THIS SPRING

Proper Feeding and Balanced Ration and Plenty of Exercise are Watchword on This Farm

Good breeding, proper management and feeding are the three factors which made for success in saving a good crop of spring pigs on the Jesse Gray farm in Jackson township this year and last, when many farmers were reporting poor results from their sows.

The record this spring reads something like this: 133 pigs saved from 17 sows, with the average age of the litters about eight weeks of age. Two sows have litters of ten living pigs at this writing, four have litters of nine and one has saved a litter of twelve.

In looking for the reasons for these results it is found that breeding is back of the sows of this herd, not only from the point of blood lines, but gilts were carefully saved from prolific mothers. One sow in the herd has produced a total of 66 pigs in six litters, and this spring farrowed nine and saved all of them.

Three two-year old daughters of the above sow have each had three litters and none of these nine litters was of less than eleven pigs, and one was fourteen. One daughter farrowed twelve pigs February 15 and has saved all to date. This is one of the litters that is entered in the Hoosier Ton-Litter Club this season.

The business on this farm is done under the name of Jess Gray and Son, and it is the son, William Gray, who really gets the credit for the results obtained, for he is in full charge of the hog production department of the place. His results show him to be a real herdsman.

All hogs on this farm are registered Big Type Poland Chinas, and being in the purebred business, Mr. Gray marks each sow and keeps an accurate herd record, thereby being able to judge which sows to save breeding gilts from to build up the prolificacy of the herd.

Proper feeding of a balanced ration and plenty of exercise are a watchword on this farm, and a visitor to this herd will find that there

Two-Pant Suits

Big Values Even
At as Low as
\$8.50

SURELY \$8.50 is little enough to pay for a boy's two-pants suit—and we have quite a variety at that price. Of course, if you pay more—you get better fabric, better workmanship. But no matter how much or how little you pay here—rest assured you're getting satisfaction and as much value as can be found in boys' clothes at the price.

Why Not Get the Best?

Pay \$15

—and you get the best—Widow Jones Suit. Best not only in quality of fabric and make; but best for you—its better and longer wear make it the cheapest suit you can buy after all!

You really can't appreciate how moderate, how low this \$15 price is until you see what an extraordinary fine suit it buys.

Coming to Town, Saturday, Apr. 14 Van's Big Dog and Pony Circus

KNECHT'S O. P. C. H.

SALT POISONING IS VERY COMMON

Continued from Page One
ible to obtain good results from the vaccination.

Drinking salty water that may remain in the salt trough after a rain may be responsible for a certain percentage of salt poisoning.
The Veterinary Department of the

Purdue Agricultural Experiment Station made the following experiments to test out the effect of common salt when given to feeding pigs in excessive amounts: All pigs used were cholera immune. Water and feed were withheld from 30 pigs, averaging 100 pounds in weight, for 24 hours. They were then given access to two self-feeders, one containing salt and the other shelled corn, and, as the hogs had eaten their fill, water was kept before them continually for the remainder of the experiment. After the pigs had been on this ration for 90 hours, it was found that the 30 pigs had consumed only four pounds of salt, or a little over two ounces of salt per pig. The same results were obtained with another lot of 30 pigs.

Another experiment was run to make the pigs eat more salt. Six pigs were used in this experiment and two ounces of salt were given twice daily in shorts. By this method in five days the pigs had consumed an average of 10 ounces of salt per head, and on the sixth day refused to touch the salty mixture. Corn and tankage were placed before them which they ate very readily.

The results of the above experiments may be summarized as follows: hogs allowed free access to salt do not eat a large quantity and suffer no effect, although the stomach and intestines may contain very little feed material; hogs forced to eat salt with the feed finally refuse to eat the salted feed.

Field observations support these results. Salt is universally fed to hogs, and a hog weighing 100 pounds frequently receives cathartic doses of Glauber's and Epsom salts, or a larger quantity than it would eat in any one day. These facts suggest the possibility of impurities of poisonous substances in the salt as being responsible for "salt poisoning" in hogs.

POULTRY HIGH IN FOOD EFFICIENCY

Continued from Page One
yield 139 pounds of milk containing 18 pounds of solid matter, practically all of which is digestible. The pig ranks second and poultry third. On the same basis of comparison, the pig stands second with 25 pounds of dressed carcass. When the water, bone and gristle is deducted there still remain 115.6 pounds of edible dry meat.

Phone 1420 **Allen's** 325-329 Main Street

OUR CUSTOMERS INTERESTS ARE OUR INTERESTS.

It is well known that we deal only in good foods and sell them at the lowest possible prices. But there is something else which makes our store your store, and that is satisfying service. To please you is our daily effort. We try to satisfy by individual attention and prompt service.

It is a part of our service to buy what our customers have to sell as well as to sell them what they must buy. If you have produce of any kind call us for prices; our phone is at your disposal at all times.

We carry only the best grades of Seed Potatoes—North Western Rose, Ohio and Triumphs, Genuine Maine Cobblers. Plenty of Onion Sets; Seed Sweet Potatoes and all the better varieties of garden seed.

Our sales on LOYALTY Flour are still increasing. It is so much better than the average flour and so much cheaper than other flours of the same quality that it strikes a happy medium with most folks.

We are still offering Daisy and Light Loaf Flours at 90 cents per bag.

Ford
THE UNIVERSAL CAR

ANNOUNCEMENT

of Interest to

Millions of Families

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it — father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer, Mullins & Taylor, Inc.; they will be glad to fully explain the details of the plan and help you to get started toward the ownership of a Ford car.

Pinnell-Tompkins Lumber Co.

The steer and sheep yield less than 10 pounds of dressed carcass per 100 pounds of feed consumed and nearly one-half of this is water. Deducting this and the bone and gristle there remain only from 2.6 to 3.2 pounds of water-free edible meat.

It has been shown in the experiments of Dr. E. V. McCollum of Johns Hopkins University that vitamins in sufficient quantity can be secured only from milk and its products, butter, ice cream, etc., from eggs, almost entirely from the yolks and from the glandular parts of an animal's body.

Although animals do not produce these vitamins they obtain them from the green leaves of plants and concentrate them for the use of human beings.

In vitamin production, the cow comes first and the hen second. The financial aspect is still more favorable to the hen and puts her in first place. Her marketable products have a higher value than those of the cow, as 100 pounds of digestible matter consumed in the feed amounts to about 13 dozens of eggs, figuring 1 1/2 pounds to the dozen. Although market prices vary widely in different sections of the country the present value of the hen's production on this basis would be from \$4 to \$5 and that of the cow would be about \$3.

The hen in addition possesses greater advantages to the city dweller in that a comparatively large number can be kept on a small area in the city and can be more easily handled than any other domestic food producing animal, and with less objection from the neighbors.

On the farm the hen also is a very efficient creature as she picks up and makes use of a large quantity of feed that would probably not be utilized by any other livestock.

APPROPRIATION TO KILL BARBERRY

\$425,000 Available Will Make Possible Original Farm-to-Farm Survey of Land

TEN STATES TO BE COVERED

Only 300,000 of Amount Appropriated For This Work Can be Used Unless \$125,000 is Raised

An appropriation of \$425,000 for the barberry eradication campaign during the fiscal year 1924, will make it possible to carry on an original farm-to-farm survey of more than half of the infested area yet unsurveyed, according to estimates made by the United States Department of Agriculture, which are based on survey costs in 1922. In the 10 Eastern States of the barberry eradication area, these costs averaged approximately \$2.28 a square mile, varying from \$1.07 to \$3.18. This figure includes overhead within the States but does not include general overhead for administration. It also does not allow for a resurvey for sprouts and seedlings on all the area covered in farm-to-farm surveys previous to 1922.

The farm-to-farm survey is practically completed in Colorado, Montana, and Wyoming. There remain to be covered in a similar survey in the other 10 States of the barberry eradication area approximately 276,000 square miles. In the 5 remaining States west of the Mississippi River, there is a total of about 123,000 square miles which should be surveyed, distributed as follows: In North Dakota, about 20,000 square miles; South Dakota, about 36,000 square miles; Minnesota, about 24,000 square miles; Nebraska, about 24,000 square miles; and Iowa, about 19,000 square miles. It is hoped to complete the first survey of this area in the season of 1923.

In the five States east of the Mississippi River, a total of 153,210 square miles is yet to be covered in the farm-to-farm survey. This area is distributed among the States as follows: Wisconsin, 32,448 square

miles; Illinois, 48,114 square miles; Indiana, 16,153 square miles; Michigan, 28,472 square miles; and Ohio, 28,032 square miles. Not all this area can be covered in the fiscal year 1924.

Only \$300,000 of the amount appropriated for this work, however, can be used unless an amount equal to the balance, or \$125,000, is raised by, or in, the States. Some States have met this condition while bills are pending before the legislatures of others. The \$300,000 sum should make possible the completion of the original farm-to-farm survey of approximately 100,000 square miles only, after expenses for administration and necessary investigations of the spread of escaped barberries and chemical eradication of barberries are deducted.

An additional 53,000 square miles can be surveyed if the States meet the required conditions and raise \$125,000. There would then remain unsurveyed about 123,000 square miles. Some of the funds raised by, or in, the States will be used for publicity, for law enforcement where necessary, for labor and chemicals needed to eradicate escaped bushes where they occur in large numbers and for necessary resurveys to destroy sprouts and seedlings. The balance will be used in the farm-to-farm survey, but the amount available and the area that can be covered can not be estimated at this time.

The same bushel of corn that will produce ten pounds of pork will keep an orphan alive for 2½ months. A chance for red-blooded folks to invest in child life.

Noble went over big last year in the corn appeal, with 4400 bushels of corn.

MAUZY

Margaret Geise of Glenwood spent Thursday night with Francis Whicker.

Mr. and Mrs. Lon Gibson and son Martin and Mrs. Whicker of Muncie spent the week-end with Mr. and Mrs. Dan V. Whicker.

Mrs. Sarah Waller of Knightstown spent the week-end with her parents, Mr. and Mrs. John Arnold.

Mr. and Mrs. Tom Bishop entertained the members of the Missionary Society with their husbands and families Saturday evening. An enjoyable time was spent. Seventy-five were present and after the beautiful supper, the evening was spent with music and guessing contests.

The Rev. H. R. Hosier of Charlotsville will preach at Ben Davis Creek next Sunday. Sunday school at 10 a. m.

Mr. and Mrs. Marshall Hinchman and Miss Margaret have returned home after spending the winter in Hot Springs, Ark.

The Missionary Society was postponed from last Wednesday to next Wednesday, April 11. Mrs. Ruth Hasselby was the leader.

Mr. and Mrs. Gilbert Hanna and grandson of Connorsville spent Sunday with her parents, Mr. and Mrs. James Gray.

Mr. and Mrs. P. S. Daubenspeck entertained at dinner Sunday, Mr. and Mrs. O. L. Stevens, Mr. and Mrs. A. C. Haskett and Miss Ivah Daubenspeck.

Hundreds of pretty Christian girls rescued from Turkish slavery by Near East Relief are not calling for powder puffs and lip sticks. Food products from the corn fields of Indiana will bring health to pallid cheeks and hope to hungry souls.

THREE FACTORS IN SAVING PIGS

Continued from Page One
is, something fed besides corn. Besides feeding supplementary feeds, simple mineral mixtures containing lime and phosphate are used in order to make up for deficiencies in mineral elements in the regular ration and as a prevention of the deficiency trouble now so prevalent in the corn and hog belt.

The layout of the hog plant on the Gray farm is a very clear demon-

stration on the value of sanitation measures in connection with hog production. Space does not permit a full description of management as followed on the farm and anyone interested in seeing just how Mr. Gray secured the results should make it a point to visit the herd. Feeding time is a most excellent time to make the visit.

Seven cents pays for three pounds of corn grits and that pays a reward for a day's work on the streets of Almaden.

Keep Your House Young

HOUSES are as old as they look—and keeping them young is our specialty. Paint is more than a beautifier—it is the safeguard against old age. And the best paint is always the most economical.

That's why we say paint your house this season—with Du Pont Prepared Paint—there's nothing like it. It looks better, spreads farther and lasts longer.

We have just the right paint or varnish for any kind of a job—inside or out—roof, porch, walls, floors, woodwork, furniture.

Come in and find out how we can help you renew your home—and how little it costs.
